COMPLETE INDOOR GYM
Fun and Function, Merion Stations, PA
Ideal for Ages 3-5

Description

Completely portable with unlimited uses, the Gym box™ is a 39" modular cube which quickly unfolds into padded mats with multiple play centers including a balls pool, seesaws, stairs, a slope for climbing up and sliding down, crawling tunnel, balancing plane, and multi-size cylinders. The Gym box provides a challenging and dynamic play environment to enhance motor skills, coordination, balance, and group socialization. Components can be used individually to strengthen specific skills such as balance and coordination, as well as together to create motor play options, obstacle courses, group activities, and much more.

RACING GAMES
Fun and Function, Merion Stations, PA
Ideal for Ages 3-5

Supplemental Information:

No assembly required. All products are surface washable. Instructional/activity sheet for scooters is available upon request.

Description

Hop, bounce, roll, or crawl! A great workout is guaranteed for all with this generous assortment of hopper balls, peanut balls, and foam tummy scooters with octopaddles to grab the ground. A ten-foot-long tunnel, constructed of lycra and mesh material and designed to simulate a rocketship, encourages a full body workout since kids have to push through the fabric to get to the other side. Double handles at the end of the rocket tunnel can be held by an adult or child, or attached to a wall or structure; the intensity of the play exercises can be varied for every age and ability. Includes timer and 2 sets of 6 cones for creating an obstacle course. Also features variety pack of tactile and dynamic cushions for stepping stones or for seating.

Adult supervision is recommended. Surface clean all components with a damp cloth. Rocket Ship Tunnel is surface and machine washable in cold water.

KIDS ON THE MOVE JUMBO KIT
Fun and Function, Merion Stations, PA
Ideal for Ages 3-5

Supplemental Information:

No assembly required. All products are surface washable. Instructional/activity sheet for scooters is available upon request.

Note: Junior Kit with 28 components is also available

Description

Kids play independently and together, building body strength, balance, and motor planning skills. This jumbo assortment features peanut balls, hopper balls and scooters. Rubber octopaddles add new levels of fun to scooter play since the "grippy" rubber heads and flexible tentacles grab the floors. Weighted tactile bean bags provide upper extremity exercise and tactile exploration. A junior trampoline with an easy grip handle encourages children to exercise, build balance and confidence. A ten-foot-long tunnel, constructed of lycra and mesh material and designed to simulate a rocketship, encourages a full body workout. Double handles at the end of the rocketship tunnel can be held by an adult or child, or attached to a wall; the intensity of the play exercises can be varied for every age and ability. Features cushion pack for stepping stones or for seating. Includes stop watch and 2 sets of 6 cones for races and obstacle courses.

Adult supervision is recommended. Surface clean all components with a damp cloth. Rocket Ship Tunnel is surface and machine washable in cold water.
