# Our Expert Team

**Aviva Weiss MS OTR/L** is the co-founder and CEO of Fun and Function, an award-winning company dedicated to creating sensory solutions and inclusive environments. An occupational therapist and thought leader, Aviva's vision is to enable each person to fulfill their greatest potential.

**Haskel Weiss** is the COO. A business jack of all trades (and then some), Haskel manages the workflow operations and directs finance. His vision and acuity help nurture the overall and provide each of our customers with a unique experiences customized to their needs.

**Dr. Kathy Klein MS OTD/OTR** is the director of education and research. An expert in instructional design, she develops innovative programs and integrates technology with learning experiences at home, in class, at the clinic and in the community at large.

**Goldie Grossman Ed.D** is the director of educational development and product safety. She develops educational resources, and builds comprehensive systems to ensure that every product meets or exceeds safety requirements.

**Adina Steinberg OTR/L** is the director of product development and education. She leads the team in developing new products and strategies to help individuals with sensory challenges, unique learning styles and developmental challenges.

**Danielle Lake MS OTR/L** demonstrates best practices in sensory integration in instructional videos and live forums. She develops sensory-inclusive content to support parents, educators, clinicians as well as employees in the workplace.

**Rivkie Berger OTR/L** is the director of product education. A skilled trainer, Rivkie educates our customers in best practices and therapeutic activities for sensory spaces. She also teaches our team to guide customers to the appropriate sensory solutions.

# About Fun and Function

We are passionate about developing resources that benefit children of every ability to significantly improve self regulation, sensory processing and executive functioning skills.

Our expert team of therapists and educators have created resources to support students with special needs who are experiencing a disruption in services.

We want to assist your school in offering creative and effective solutions for administrators, staff, students and their families.

“*Our passion is developing innovative tools to help children realize their fullest potential, and achieve personal, academic, and developmental goals.*”

Aviva Weiss, MS OTR/L  
Co-Founder and CEO
