- * This product is designed for users with special needs. Adult supervision is required during use at all times.
- * For indoor use only. The equipment uses an electrical outlet.
- * This product was not designed to be free standing. It must be attached to a wall at least 4 feet (1220mm) from the floor. The electrical outlet should be placed next to the cloud. Professional installation is recommended.
- * Turn off the panel when cleaning. Use a mild detergent and a lint free cloth. Never use abrasive cleaning pads to clean this item.

Description

This cloud has a rainbow lining! Light up your sensory space with this cloud shaped luminous mirror. The concealed LED strips on the cloud's edges light up according to the colors of the rainbow. Hang low enough for kids to see their reflection and practice facial expressions and teach emotion recognition in a soothing and relaxed atmosphere.

Includes

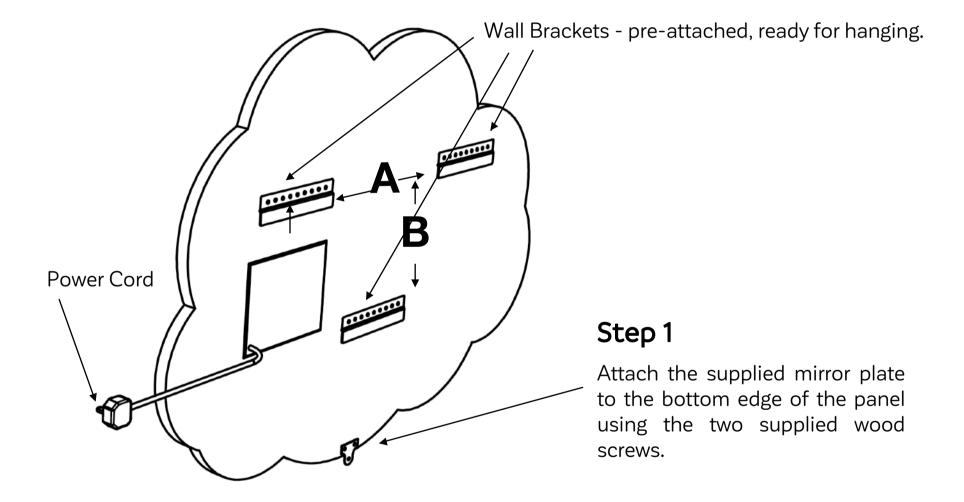

3 x Pre-attached Wall Brackets

Carefully check all parts are included in your packaging. Contact us immediately if parts are missing.

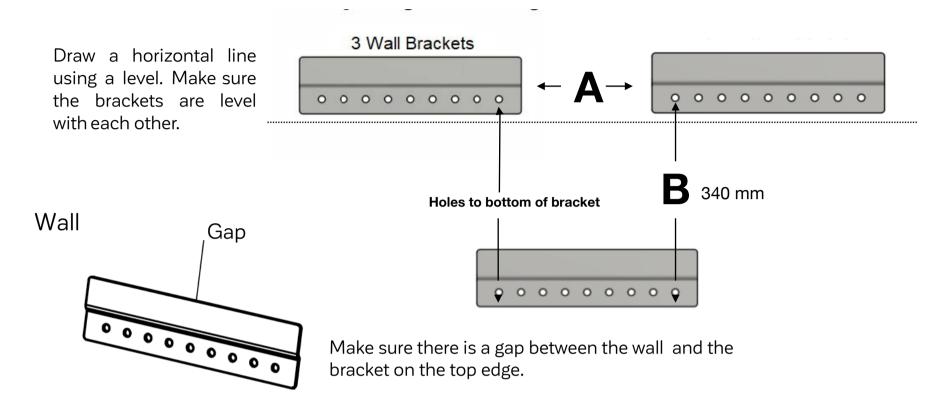

Installation

The Cloud Mirror is designed to be installed on the wall with the supplied brackets. Screws should be used that are recommended for the type of wall the panel will be installed on (wall installation screws are not included). Professional installation is recommended. The panel should be installed close to an electrical outlet.

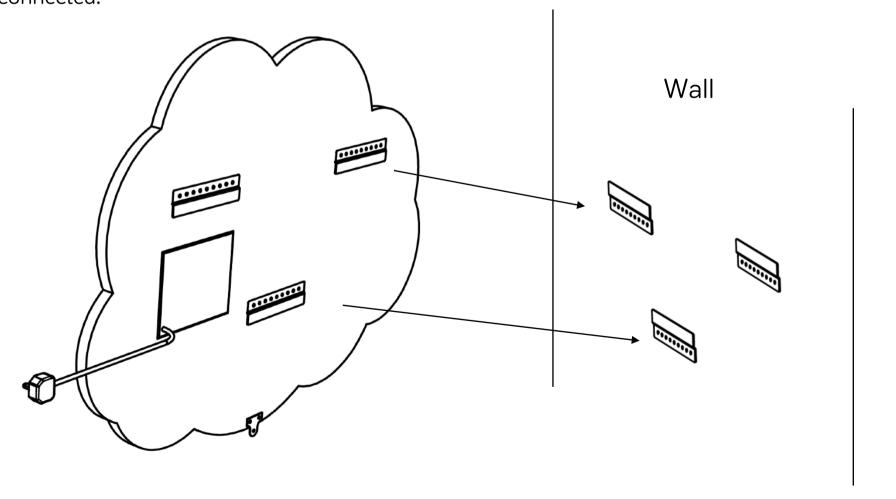

Step 2

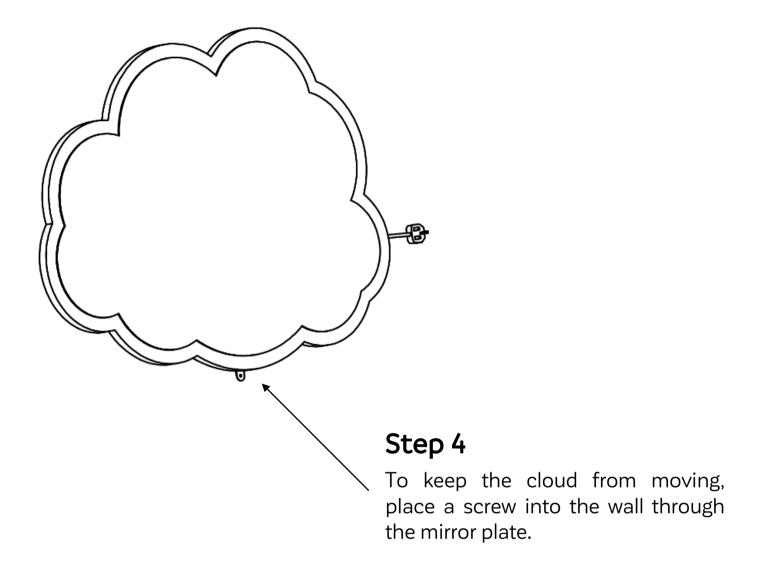

Attach the three supplied brackets to the wall using suitable screws for the type of wall to be installed on. Set the top brackets at least 4 feet (1220mm) above the floor and the horizontal distance between "A" and "B" as shown on the previous page's drawing. Make sure all attachment hardware can support up to 50 lbs. (22 kg) of weight.

Step 3

Hook the brackets located on the back of the panel onto the wall brackets attached to the wall. Note: Lift the panel gently and set slowly into place until the brackets are securely and correctly connected.

Connect Power

When the power is connected, the Cloud Mirror will Illuminate and it will go through automated color changes.

Troubleshooting

Q - My Cloud will not work.

A - Check the power supply is connected and operational.

Cleaning

To clean your Cloud Mirror, wipe with a soft white cloth and mild detergent. **Never use** an abrasive cloth or any solvent such as mineral spirits or chlorine based products. Always unplug the power cord when cleaning.

Maintenance

Your Cloud Mirror requires no maintenance except a visual inspection for a damaged front panel. Periodically, check all wall attachments and make sure the panel is secure. Make sure all electrical cords are not damaged and still intact.

Guarantee

CONDITIONS OF GUARANTEE

This guarantee is in addition to and does not in any way affect any statutory or other rights of consumer purchasers .If within the applicable guarantee period (as shown in 8 below) the appliance proves to be defective by reason of faulty design, workmanship or materials, we undertake subject to the following conditions to have the defective appliance (or any part or parts thereof) repaired or at our discretion replaced free of charge.

- 1. The appliance shall have been purchased and used solely in accordance with Standard operating instructions and the technical and/or Safety Standards required in the country where this appliance is to be used
- 2. All inquiries must be through such dealers .For appliances used in the UK., U.S.A., Channel Islands, Isle of Man, and Republic of Ireland the appliance should be returned together with this guarantee and proof of purchase promptly on being found defective, at the purchasers risk and expense, to the authorized dealer from whom the appliance was purchased.
- 3. This guarantee shall not apply to damage caused through fire, accident, misuse, Wear and tear, neglect, incorrect adjustment or repair, to damage caused through where this appliance is used, or to damage occurring during Installation, adaptation, modifications, or use in an improper manner or inconsistent with the technical and/or safety standards required in the country transit to or from the purchaser.
- 4. If at any time during the guarantee period any part or parts of the appliance are replaced with a part or parts not supplied or approved by us or of an objective quality safe and suitable for the appliance, or the appliance has been dismantled or repaired by a person not authorized by us, the purchaser shall not be entitled to any rights and/or remedies under this guarantee.
- 5. The purchaser sole and exclusive remedy under this guarantee against us is for the repair (or at our discretion the replacement) of the appliance or any part or parts and no other remedy, including, but not limited to, incidental or consequential damage or loss of whatsoever nature shall be available to the purchaser.
- 6. This guarantee shall not apply to lamps, batteries, color filters, cabinet parts or any other parts of a limited natural life.
- 7. Our decision on all matters relating to complaints shall be final. Any appliance or Defective part which has been replaced shall become our property until paid for in full.
- 8. The guarantee period applicable to all new appliances shall be 24 months.

Information about products that generate electrical noise

USA and Canada

This device complies with FCC and industry Canada RF radiate exposure limits set forth for general population. It must not be colocated or operating in conjunction with any other antennas or transmitters.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1 This device must accept any interference received, including interference that may cause undesired operation.

This equipment compiles with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. Should problems occur reorient or relocate the receiving antenna. Increase the separation between the equipment and the receiver. Connect to a power outlet on a circuit different from that to which the receiver is connected.

Technical - Cloud Mirror

The Cloud uses a power supply that is double insulated. A class 2 device does not require portable appliance testing. We do however suggest an annual visual inspection looking for any damaged parts.

The LED never needs replacing and has a life expectancy of around 50,000 hrs. (approximately 10 years).
